Innovation  
Service

Welcome to the  Milliken Connections Site!  
This site allows for new and exciting communications between Milliken and  via the internet.

To share from

Building is a building on the  Site that has used quiet a bit of Milliken carpet in the past and will try and use some of the older product again by reusing the carpet after being processed by Milliken's Earth Square program.

Project of the month

Milliken Projects from Around the World and other great Milliken carpet projects for review!

What's New with  and Milliken!

"Certainly the Net is a powerful medium for communication. But even more important, it is a vocational medium - a place where real work gets done, real competitive advantage is gained, and real growth is generated"

## Earth Square at [ ]

[ ] at [ ] recently chose to use Earth Square at their site.

Earth Square Before

Earth Square After

### I. What is Earth Square?

A.) Earth Square prevents carpet from being landfilled by renewing older carpet tile.  
B.) The face of the tile is renewed via a revolutionary process.  
C.) A new pattern is then applied via the Millitron Dyeing Process.

### II. Why Earth Square?

A.) It's 100% post consumer recycled content.  
B.) We can renew [ ] modular carpet tile for reuse at [ ]  
C.) [ ] can purchase renewed tile from Milliken.

### III. Latest Global Recognition

## First Appearances Entry System

A first impression is important especially in a place of business. This is also true of maintenance and upkeep of the environment in which we work. A high profile cleaning program that maintains entrances at an optimal level will yield positive results for your business.

Keeping entrances and lobbies clean would seem to be an insurmountable task. However, sometimes the resolution to many of our cleaning and maintenance problems is right under our feet, and nowhere is this more the case than when people enter buildings. Approximately 80% of the dirt in a building got there by being carried in on people. Removing the dirt once it is inside can cost upward of \$600 per pound.

One commercial matting manufacturer indicates that up to 24 pounds of dirt can be tracked into a facility by 1,000 people coming through an entrance in a 20-day work month. Thus, the removal of dirt can be very expensive. The key is to stop the dirt from coming into the building. Using the figures provided, it could cost \$14,400 to remove the dirt monthly or a \$172,800 per year!

Most of the dirt could have been collected at entrances by our First Appearances Product Line. First Appearances is comprised of three phases of product designs. A client may use all for the optimum effect or just one in a targeted application. The phases are as follows:

EZ-Scrub

Brush Off

Clean Sweep

FIG. -12-

CASE 5154

INTERNET-BASED INTERACTIVE TRACKING SYSTEM FOR FLOOR COVERING PROJECT  
GREGORY P. COOMBER et. al.

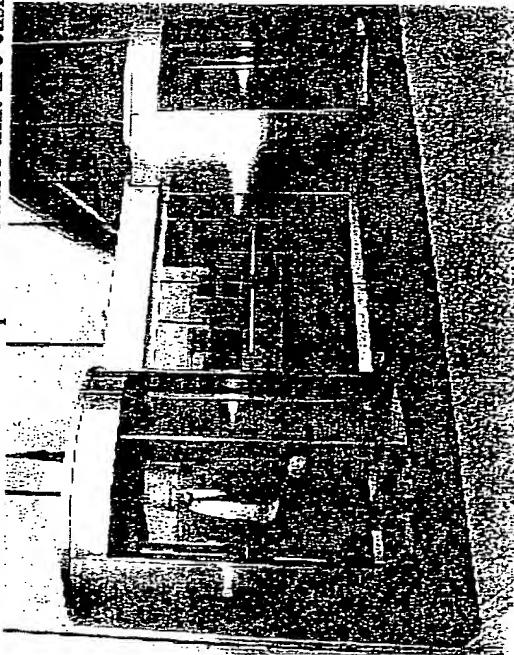

15/38

Milliken Carpet online

Home | Projects | Products | Customer Services | Contact Us

EZ-Scrub:

This phase is a 100% thermoplastic that is typically deployed on the exterior of a building under an overhang and as a border around Brush Off installations. It comes in 7.67 inch square modules that are easily pieced together.

INTERNET-BASED INTERACTIVE TRACKING SYSTEM FOR FLOOR COVERING PROJECT  
GREGORY P. COOMBER et. al.

16/38

**Brush Off:**

This phase is a 100% thermoplastic with an engineered textile that is typically deployed on the exterior of a building under an overhang or in air locks. It comes in 7.67 inch square modules that are easily pieced together.

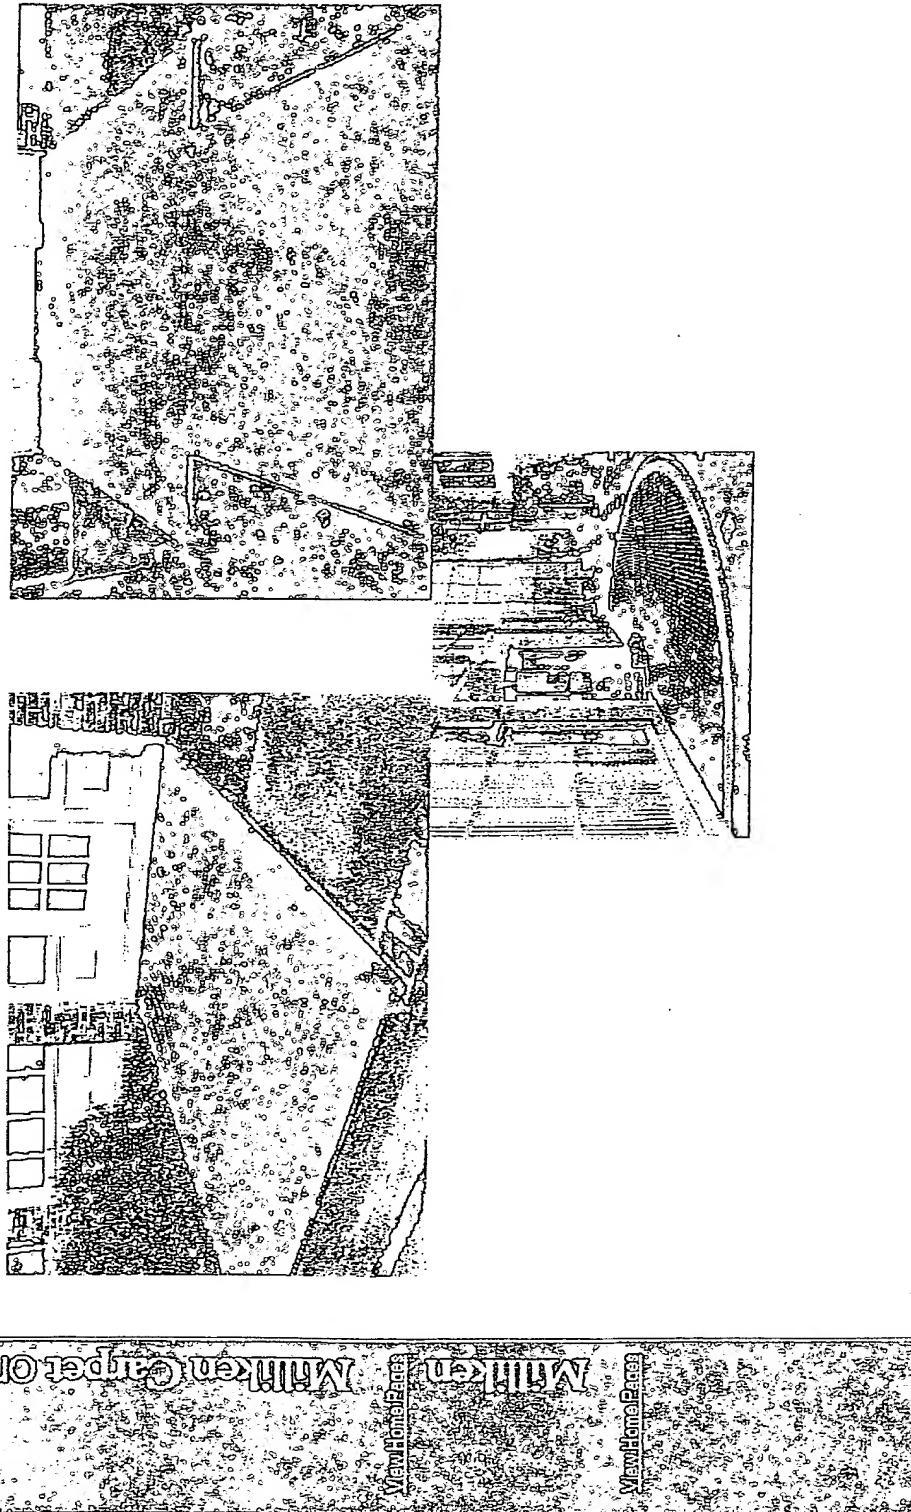

FIG. -14-

17/38

The image shows a screenshot of the Milliken Carpet Online website. At the top, there is a navigation bar with links for Home, Projects, Products, Customer Services, and Contact Us. Below the navigation bar, the word "Integrity" is prominently displayed. On the left side, there is a large image of a carpet sample labeled "Clean Sweep". To the right of the carpet sample, there is a block of text:

**Clean Sweep:**  
This phase is an 18 Inch modular engineered textile that is typically used in air locks or on the immediate inside of a building. It is installed in a manner similar to modular carpet.

At the bottom of the page, there is a footer with the Milliken Carpet Online logo and some smaller text.

Carpet Standards Program is the collection below in 3'x3' or 18x18" Modular platforms (cut or loop pile finishes)

The  site took an inventory of what was on the floor, what was in the stockroom on site and then worked with Milliken Design to come up with patterns and colors that worked with existing furniture and new furniture standards. The team at  reduced inventory and the chance that a product would be discontinued in the future. These patterns will also work on old carpet that will be "Earth Squared" and reused at  or other  sites around the world.
